POSTAL REGULATORY  
COMMISSION

May 23, 2021

Dear Postal Regulatory Commission,

I ask you fervently to stand up against the policies of Postmaster Lewis DeJoy. He is trying to dismantle our postal system. Please don't let this happen! He wants to further slow down our mail by ensuring it only travels on trucks, not planes. And he intends to close as many post offices as he can! What a disaster!

I correspond with many loved ones on a regular basis. My husband and I receive our meds by mail. I contribute to many wonderful organizations through the mail, also. We live in a rural area where the P.O. is a gathering place for the community.

Please do all you can to ensure the continuation of a healthy, viable postal service. We all need it so!

Sincerely yours,  
Laura Whitehead
